

SELF-GENERATION INCENTIVE PROGRAM

Renewable Generation Customer Proposed System Information Attestation

The following information (Responses to Questions 1 – 5) is required by the Developer of the renewable generation project applying for SGIP's Renewable Generation Resiliency Adder.

- 1) Provide an estimate of how long a project's renewable generation system will provide electricity for the relevant facility average load during an outage.

- 2) Indicate whether a project's critical loads can and will be isolated.

- 3) Provide an estimate of how long a project's renewable generation system will provide electricity to critical uses during an outage.

- 4) Provide an estimate of how long the renewable generation system can operate in less-than favorable circumstances.

- 5) Summarize information given to the customer about how the customer may best ensure operation of the renewable generation system, in the case of a Public Safety Power Shutoff (PSPS) event announced in advance.

ATTESTATION

[DEVELOPER SECTION]

I, _____ (print name of Developer), hereby attest that each of the statements provided in this document are true and correct.

Signature: _____

Name Printed: _____

Title: _____

Date: _____
